Partners in a sample of partnerships across umbrella areas were asked to complete a survey describing their perceptions of the partnerships they were engaged in, including:

- Shared power
- Perceived effectiveness
- Partnership management
- Group cohesion
- Co-creation of knowledge

This Partnership Characteristic survey was adapted from Shultz et al. (2005) & McNall et al. (2008).

See Figures 1 and 2.

Figure 1: Perceived Partnership Characteristics by Partner

## Partnership Characteristics

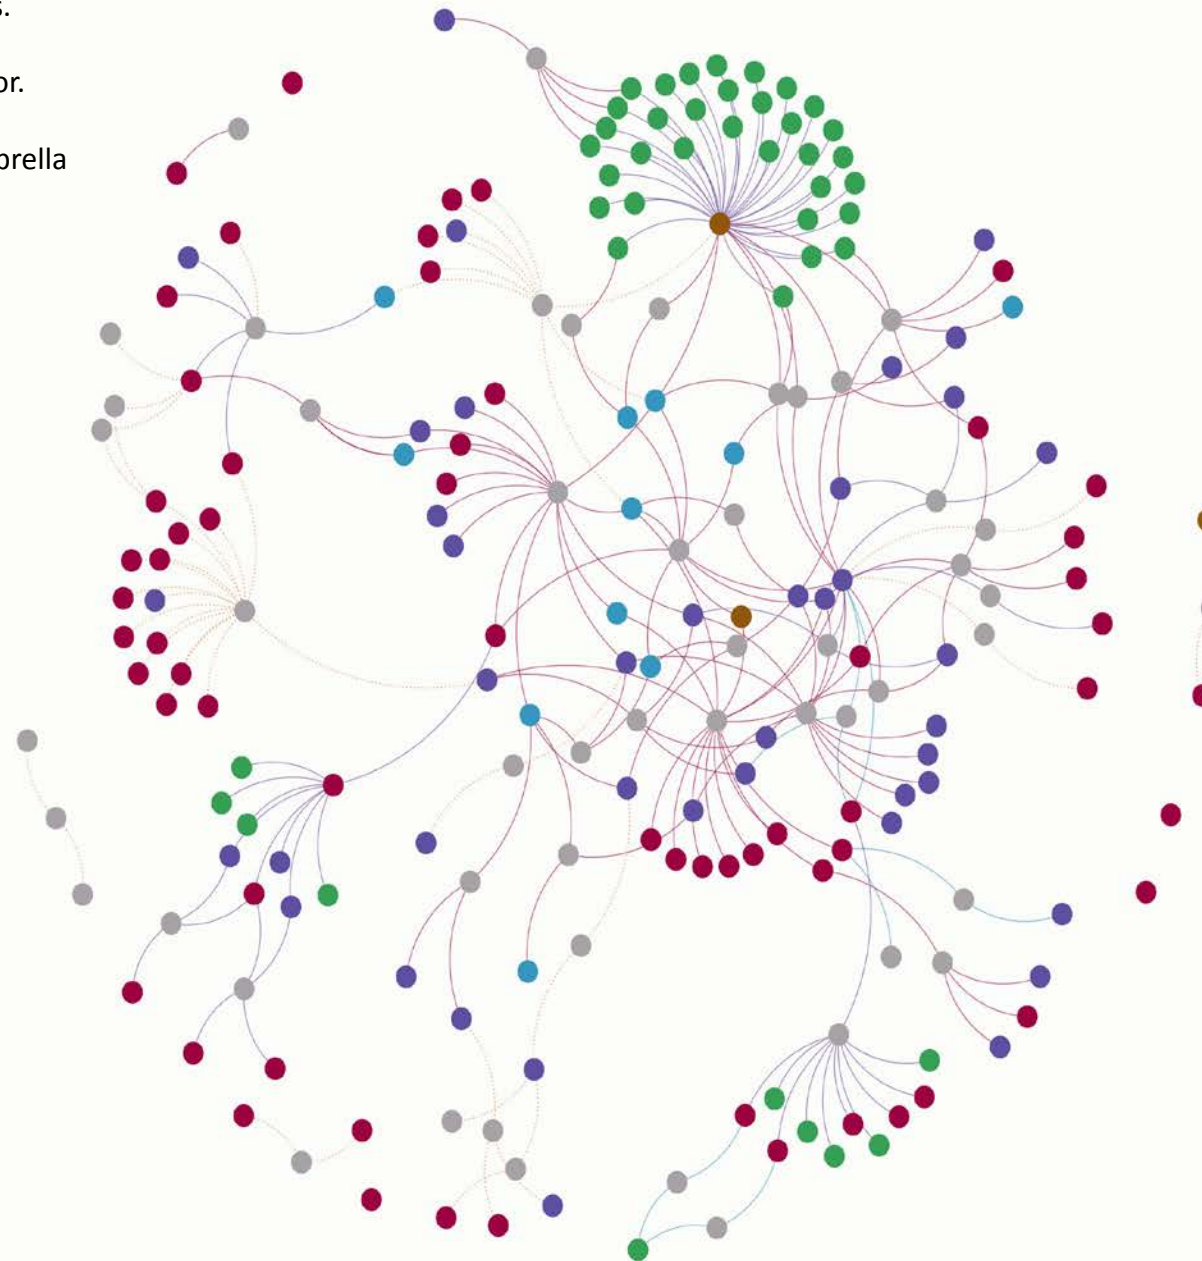

Figure 2: Average Perceptions Across Partners

The below image is a visual representation of the network of partners engaged in UNP partnerships.

The dots represent partners, distinguished by color. The lines connecting dots represent the type of partnership, determined by the partnerships' umbrella area.

This map was generated using Kumu (<https://kumu.io/>).
