ZIP CODES 84104 & 84116

This report compares the 84104 and 84116 zip codes of Salt Lake City to larger geographies. These neighboring areas are located on the west side of Salt Lake City, almost entirely north of Highway 201 and west of Interstate I-15. Data are from the U.S. Census (2000 and 2010) and the American Community Survey (2007-2011, 2011-2015), and apply to the 84104 and 84116 zip code tabulation areas determined by the Census.

Health metrics are presented in the small area geography used by the Utah Health Department. The Glendale and Rose Park small areas encompass the 84104 and 84116 zip codes, respectively. The data presented is from the Behavioral Risk Factor Surveillance System. The Utah Department of Health also presents a coefficient of variation (CV) to help users determine the fitness for use of the data. Data points which have been indicated to be used with caution by the Department of Health are noted in the table.

Metrics in the Transportation and Housing section is pulled from two resources: AllTransit and H+T Index. Both resources are compiled by the Center for Neighborhood Technology (CNT). The H+T Index uses data from the 2009-2013 American Community Survey and inputs from AllTransit. AllTransit uses the 2010-2014 American Community Survey 5-year Estimate, U.S. Census Longitudinal Employment-Household Dynamics Origin-Destination Employment Statistics, and a database including data from transit agencies compiled by CNT.
